Sound, story and visuals somehow resembled HOG setup, and basically you solve mahjong puzzles instead of HOG puzzles to progress in the story.. the mahjong huntress switch the mahjong huntress switch the mahjong huntress steam.. i will recommend this game anyway buy try and if you don't like take your money back.. steampowered.com/app/992690/We_are_the_Plague/ New release - Ghostdream:When you die, you normally have only one simple wish - to return and tell them - "Hey, guys - it's OK" But returning is not easy.. Save yourself the stress and avoid this I don't have multiple Mahjong games in my library, so I can't compare this with anything.. As for the story it is fairly intriguing with a very nice art style It's nothing special but I do not believe it is worth a price tag of 5 dollars.. Each level have 3 requirements and you will be awarded stars for completion of each requirement separately (so if you completed 1st and 3d on your first play you can replay it again and aim for 2d only which makes it a bit easier if you play one level for couple of times).. But I'm familiar with the Mahjong concept and this game accomplishes that Has a weak (but necessary?) story behind it to tempt you to finish the game - even though Mahjong is just Mahjong.. Which in my opinion makes the game fail at the very basics of a solo mahjong game.. - Some power ups don't have any meaning to use (like find matched ones etc)anyway.. Technically wise I haven't encountered any major issues while running it on Debian 9 with Nvidia drivers.. - Lots of levels and puzzles- I bought the game with %90 off cheap to have fun for a long timeAnd The Bad Ones :- Game has bugs.. Game works well However there's a discussion on game forums where people stated they had issues with this game.. It's a shame, because I otherwise enjoy the cheese of the game itself and would even be willing to overlook the typos and similar issues.. Power ups are not awarded at the rate they need to get used Very poor Plus some genius decided that a Mahjong game *just needs* to have match 3 battles (where they don't bother telling you the rules) at various points in the game.. steampowered com/app/1001600/Diggerman/ Stream and Giveaway on Twitch!:Next up - two premieres this week on Steam! Can be frustrating at times when you don't get the 3 stars in each puzzle :-) I recommend it if you like Mahjong.. after few levels i had to turn it off really so so so boring when you play a lot.. If I wanted match 3, I would have purchased match 3 If you like achievements, this is probably not the game for you - unless you like timed Mahjong unwinnable layouts.. She, as a growing number of women of her age, wants to make something more out of herself, and becoming a housewife is not exactly what she had in mind.. Very disappointed in this game As an old mahjong player i have a lot of words to say.. She is reluctant, as the marriage was arranged and she does not feel it's the time or the place - or the man for that matter.. The other negative reviews are right Most of the hands require power ups to complete because the layout is not a winnable configuration.. If you play this game and ask yourself the question "Wait, did the devs not write a collision algorithym that ensures the boards are actually solvable?" then rest assured they really didn't..
